

## **QMS Policy Statement for O'Reilly Group**

The quality policy of O'Reilly Precast, O'Reilly Oakstown and Barleystone Paving is to provide efficient professional service in manufacture, supply and installation of prefabricated concrete products and the manufacture and supply of ready mix and aggregate products to private and public clients.

The Company's management system complies with the requirements of I.S EN ISO 9001:2015. These requirements will be achieved using trained well-resourced personnel to increase the profitability and company value whilst improving its market share and its customer satisfaction level.

The company shall comply with all statutory and regulatory requirements, as well as those of the customer and regulatory bodies. The company will endeavour to continually improve by setting of objectives and targets at all levels of the company and communicating these to all staff to encourage their participation in the achievement of this improvement.

This policy document will be communicated throughout the company and available to the public and will be reviewed on a regular basis and updated in line with business changes or when the standard to which it subscribes is updated. There will also be ongoing review of the quality and environmental management systems, and all staff members are continuously encouraged to participate in same.

A handwritten signature in blue ink, appearing to read "E. Cosgrove", is positioned above the printed name.
